2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

An unprecedented number of Haitian entrants have been arriving at the San Ysidro Port of Entry in recent weeks. Haitians, like Cubans and refugees, are a special class of immigrants who are immediately eligible for public social services upon arrival to the United States. The Haitian entrants processed by U.S. Immigration and Customer Enforcement have been sheltered at Christ Ministry Center - United Methodist Church in the City of San Diego. Most Haitian entrants will relocate to other parts of the country with no intent to reside long term in San Diego.

The Christ Ministry Center shelter was beyond capacity and therefore, the California National Guard (CNG) was mission tasked by Cal OES on 09/16/16 to set up two armories (National City and El Cajon) for temporary shelters by 09/19/16 at 0800, Mission Tasking 2016-SOC-26724. The Haitian entrants are being transferred to the National City Armory shelter beginning 09/19/2016 at 0800. Multiple Non Governmental Organizations (NGOs) are contributing to provide for all wrap around services for both of the shelters. It was reported on 09/19/2016 that the overnight population was 233 down from 355. Currently, there are no unmet needs.

Non Governmental Organizations

- Alliance San Diego/Christ Ministry Center United Methodist Church- Continues to operate the two temporary shelters established at the CNG Armories.
- Catholic Charities- Administering the Refugee Cash Assistance (RCA) program that provides cash assistance and social services.
- American Red Cross (ARC) - ARC is continuing to work with the Alliance San Diego and Christ Ministry Center United Methodist Church to provide unbranded cots, blankets, hygiene kits, dormitory management expertise, technical assistance and training to church personnel in managing shelters.

State agencies currently supporting the sheltering operations are as follow:

- CDSS- Coordinating with U.S. Department of Health and Human Services, Administration for Children and Families and Office of Refugee Resettlement.
- CDFA- In contact with the Del Mar Fairgrounds in San Diego County regarding a possible shelter location.
- Cal Volunteers- Two Cal Volunteers staff are deployed to the National City Armory on 09/18/16 to assist Alliance San Diego in preparations to receive and intake the Haitian entrants. Cal Volunteers has also activated 11 California AmeriCorps Disaster Team members to assist in sheltering operations.
- CDPH- Coordinating with U.S. Department of Health and Human Services, Office of Refugee Resettlement, Office of Refugee Health, and local public health.
- CNG - Mission tasked to stand up two Armories for shelter sites by 09/19/16 by 0800.

The San Diego Operational Area is monitoring the situation and will assist in the set-up of a health screening tool and connect individuals that need help with medical services.

The Imperial Operational Area is monitoring the situation in the Calexico Point of Entry and is currently not significantly impacted.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 3
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Soberanes, Vegetation Fire, Monterey County

Location: Soberanes Creek, Garrapata State Park, north of Palo Colorado/Big Sur

Jurisdiction: SRA

Type 1 IMT

Per Cal OES Duty Officers, CALFIRE, and ICS-209 as of [09/20/16 at 0538 hours](#):

- [121,050 Acres](#), 71% Contained
- Expected Containment Date: 09/30/16
- 400 Single Residences; 10 Commercial Structures Threatened
- 3 Residential Structures; 2 Other Minor Structures Damaged
- 57 Residential Structures; 11 Other Minor Structures Destroyed
- Keep fire within established or previously existing control lines and firing where opportunities exist.

Deployments

- 2 Cal OES Fire Assistant Chiefs (5212, 5262)
- 4 Cal OES Public Safety Communications (PSC) Technicians

Resources Assigned

- 45 Local Government Engines
- 1 Local Government Water Tender
- 1 Cal OES MIGU
- Cal OES Comm-62

FMAG

- On 07/28/16 at 1852 hours an FMAG was approved by FEMA, FM-5137.

WEATHER OF CONCERN

Weather of Concern

- A Fire Weather Watch is in effect on 09/21/16 from 1200 hours until 1900 hours for Lassen County.
- A Red Flag Warning is in effect 09/20/16 from 1200 hours until 2000 hours for Lassen and Modoc Counties.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

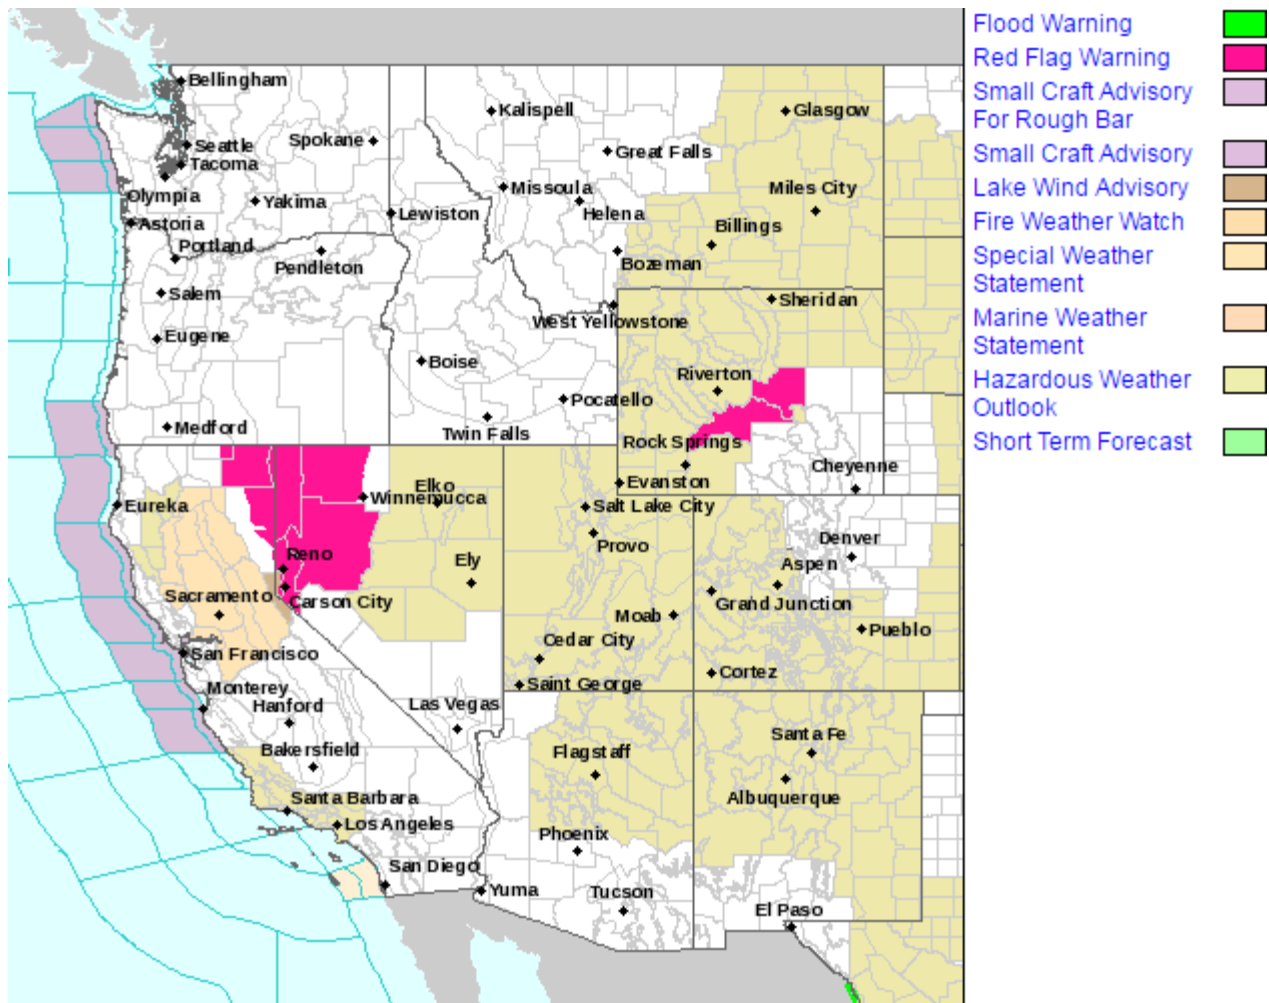

NORTHERN CALIFORNIA

Today we will still be sunny but temperatures will begin to cool and the southwest winds will increase in the afternoon. Wednesday afternoon and Thursday the low will be over Northern California. The north state will be partly cloudy with scattered showers over Siskiyou, higher elevations of Shasta, Modoc, Lassen, Plumas, and Nevada counties, with a slight chance of showers moving down into valley north of Chico. Temperatures will be much cooler with snow levels 6500 to 7000 feet. Gusty southwest to northwest winds are expected. The thing that could make this a wetter storm is what is occurring over the far south end of the state. There is a low pressure area this morning off the Southern California coast and it is pulling moisture northward from Hurricane Paine. This increased moisture will bring showers and thunderstorms to southern California. The moisture will move northward but the southwest flow associated with the Northern California low is expected to push it eastward before it reaches Tahoe. If the Northern California low moves a little slower or is a little further to the west then we could see some of this moisture make it to the north state. Friday the low will be to our east. There will still be a few clouds over the far north end of the state, but the rest of the area will be sunny. Saturday through much of next week high pressure is back over the area. Temperatures will be back above normal by the weekend and stay there through most of next week. Gusty north winds are expected Saturday and Sunday.

SOUTHERN CALIFORNIA

As a low moves inland today, the thunderstorm activity will become more widespread across Southern California. Isolated showers and thunderstorms will still be possible across Southern California Wednesday due to some leftover moisture. Isolated afternoon showers and thunderstorms will also be possible over the Sierra Tuesday through Thursday. High pressure over California will continue to bring hot and dry conditions to the area today. Maximum temperatures will be in the mid 80s to mid 90s across the mountains with mid 90s to 105 in the valleys. Minimum humidity will be mainly in the single digits and teens away from the coast. A Pacific trough dropping down the West Coast will bring a cooling trend and fair high humidity to the region tonight through Thursday. Temperatures will be 10 to 15 degrees below normal away from the coast by Thursday. This trough will also bring very strong westerly winds to the mountain ridges and desert passes Wednesday afternoon through Thursday afternoon. Significant warming and very low humidity will take place Friday through this weekend as strong high pressure approaches California from the Pacific. Temperatures will be 10 to 15 degrees above normal by Sunday. Strong and gusty north winds will surface across the South Coast of Santa Barbara and the Grapevine Thursday night through Friday night. There will be gusty northeast to east winds across the mountains and below the canyons and passes of Southern California this weekend.
